

MARIAN BAKER SCHOOL DIGITAL CITIZENSHIP CONTRACT

Dear Families,

MBS students have the privilege of using the Internet throughout their school day. Students follow the Student Network and Internet policy that is in the Student handbook. This Digital Citizenship Contract is provided to help students and parents better understand their responsibilities.

As a student, I must:

- Protect my private information. I will never give my email address, home address, phone number, or full name, to any website or person. I will always ask a teacher or adult if I am unsure about something. *My password is TOP SECRET!*
- Read and agree to the terms outlined in the Extended RUP Policy on the Marian Baker School website.
- Respect myself and others when I talk or write. I will communicate in email as if a parent or teacher might read it! I will use appropriate language.
- Respect other people's work. When I create projects, I will show where my information and pictures came from. I will always do my own work.
- Follow ALL school rules online. Violent games and videos are not allowed, even if they get past our safety filters. Rarely there may be inappropriate sites or images that get around the filter. If I see something inappropriate, I will tell a teacher and close the web browser.
- Know what happens if I break this contract. I may lose technology privileges and face other consequences for my behavior. Being online is like being in my community and at school. I will have fun creating, seeing, and doing many different things!

The bottom of this form needs to be cut and returned to my homeroom teacher before I can use the Internet in my classes.

Thank you,

MBS Administration
